In Sympathy With Further Break in Third Avenue. New York, March 24.—In the absence of positive developments affecting property values in the news, operators in stocks today acted largely on de-ductions from the negative side. The operations, which were almost wholly in the hands of the smaller profession-al classes, were significant, therefore, of nothing more than the view of that class. The fact that the violent break in the local traction shares had not resulted in bringing on the market any considerable quantity of other shares was accepted as indicative of the good resisting power of the market. It was reported from Westerly Wed-nesday that the Norwich Warriors would not take the three games which they claimed last week in the duckpin league by forfeit from the Norwich No. I team, but would roll the match

Captain Harris of the Warriors stated Wednesday evening that he would have to be shown some better reason than he knew now before he would consent to rolling the match, as he considered his team was rightfully entitled to the score they now have with the forfeited games. The Warriors, he said, had a chance again Monday night this week to claim three more games by forfeit, as New London team No. 1 falled to show up and sent no word. The Warriors would roll this match out, but as for the other he could see no reason why it shouldn't stand as it is.
